Re: Network Computer System

Dear Greg

I am writing this letter to you and your organization to thank you for a solid performance in regards to the network you installed.

I was pleased with your investigation process to determine the best solution for Advanced Equipment Sales. You provided a detailed quotation that fit with in our budget guidelines. The install went well with very little down time, your staff was informative through the process and we where up and running in short order. The training onsite was professional and informative.

Our new network has worked great, and we hope to continue to grow our network with Keystone Technical being our number one vendor.

Best regards,

Jeffrey Burnley  
Vice President of Operations
